

# YOUR SAFETY IS OUR PRIORITY

Culpeper Surgery Center is open and here to provide safe, high quality outpatient surgical care to our community. We have made changes to ensure a safe environment for our staff, patients and physicians.

All staff, physicians, and patients are required to wear masks while in our facility.

Enhanced cleaning protocols are performed throughout the day.

All staff, physicians, and patients are screened and temperatures checked prior to entering our facility.

Patients must call 540-829-0700 on arrival for registration instructions. All visitors arriving with patients will remain outside the facility unless prior exceptions are made.

Social distancing is practiced whenever possible.

All patients must sanitize and wash their hands during the visit.
